

**Amendments to the Abstract of the Disclosure:**

Please replace the originally-filed application with the Abstract of the Disclosure that follows:

~~The present invention is related to an~~ An installation method of ~~panels~~ panel ~~comprising~~ includes a step of assembling panels by fitting projection parts 2, 3 of one panel 1 to insertion grooves 5, 6 of another panel 1, and a step of elastically attaching panels by applying an elastic tensioning force between assembled ~~part~~ of panels. Also, ~~the present invention is related to~~ a rail type fixing apparatus for installing panels ~~comprising~~ includes a rail 20 having a guide groove 21 formed in a longitudinal direction thereof, and a plurality of ~~attaching plates~~ attachment panels which are guided ~~to the~~ along guide groove 21 and are provided movably in the longitudinal direction of the rail 20 and in which a hook projections 32 are provided, and an elastic member which is provided between adjacent ~~attaching plates~~ attachment panels and applies ~~elasticity a~~ tension restoring force between hook projections of the ~~attaching plates~~ attachment panels to draw the hook projections 32 of the respective attachment panels 30 to each other.
